## The races are on..... almost!

The club race for June had eleven boats gathered at the start line only to hear a roll of thunder and see a distant streak of lightning. Needless to say there was a quick exit to the safe haven of the front porch and a lot of disappointed faces. This year we have seen an increased in club activity and hope you will consider joining us next race weekend for a lot of fun. If you are not racing you can ride the committee boat for a close up view of the action and join in for the social hour afterwards. Admission fee is an appetizer to share.

## Welcome New Members

If you have been around the club house you may have noticed a few new faces. Marc and Dot Michaelson from the Myrtle Beach area joins us and will be launching their CL 16 dingy soon. Ron Medlin sailing a Nacra 5.2 is from Wilmington along with his eight year old son and first mate Tray. Sammie & Peggy McLamb of Hope Mills have joined and may be a familiar face as they have a lot in the campground. Isaac Kuykendal has joined as a student member and sails the yellow Lido 14. Zach and Meredith Morgan of Wilmington have joined and sail a Hobie 16. We look forward to continuing this growth in membership, so do your part and invite a sailor!

## Yard Storage Front & Backlots

The front lot is reserved for sailboats that are being sailed regularly as determined by the board. If you wish to store your boat on the front lot you should make a formal request of the board. If you have a boat not being regularly used, please move it to the backlot or advise the Board if you need assistance. All boats on moorings should store empty trailers on the back lot.

## Boat & Trailer Identification

All trailers, dollies, and boats on racks should carry identification of owner and telephone number. As we identify current members we will tag the trailers with a WSC decal. If your trailer does not have a decal by August 15, please contact the board for one. Efforts are being made to clean up the back lot of abandoned trailers.

## Non-Member Boat Storage

We are offering storage for non-members at \$200.00/yr. in the very back lot. Please help spread the word.

## Clean Up Day

Saturday August 29th is another Clean up day for the club. We plan to power wash the end of the Pavilion, replace siding on the kitchen, replace fire hose bumper on the pier, reorganize the storage barn, repair a leak in the bathroom wall, and do a good general clean up for Indian Summer. Due to the number of boats on the lot for Indian Summer we will also move unused boats to the back lot. The day will be concluded with a hot dog cook out. Take pride in your club and join us doing your part.
