## The Club is now OPEN!

The 2015 season started with a great Clean Up Day. The club was given the once over from top to bottom. The upper pavilion was given special attention by two power washers which proved to much for the cobwebs and dirt doobers. Beaches were raked, bushes trimmed, grass mowed (front and back lots) and general repairs made to the club. A new switch is being installed as you enter the showers to control the hot water heaters for the showers only. It will be maintained in the off position to save on electricity cost. If you plan on using the showers please turn the switch on upon arrival as it will take about 30 minutes for the water to heat and PLEASE turn the switch OFF when departing.

## Attention: Racers, Luffers, & Landlubbers

Our next club race is scheduled for SATURDAY, May 23 at 2pm. After the race everyone is invited to join for dinner on the grill. You can bring your own meat or for 10.00/person aged choice Rib-eye steaks will be cut on site and be served with bake potato and salad. To reserve your steak you must e-mail or call David McLamb (e-mail & phone listed on left side of page) no later than Thursday 21st. It is our tradition to bring an appetizer to share and whatever beverage you wish. Join us for the fun and a few lies from sailors as to how well they sailed that day! This is a great opportunity to invite a potential members to visit.

**“If you’ve lost that sailing feeling . . .** then you should have been at the club to see the two resurrected Sunfish sailboats being sailed by teen agers, ’tween agers, and not-yet old men (actually concerned grandfather). Large smiles all around, eagerness to sail some more (tomorrow, please?)

There is that look in the eyes of a kid out on his own (freedom) in sole control of a Sunfish – of excitement, some anxious, a lot of adrenaline, and FUN!

**“If you’ve lost that sailing feeling . . .** then you should have been at the club to see the first rigging and outing of a new sailboat, all tricked out with all the go-fasts and adjustments - the young-at-heart sailing couple who went out and tried it all, and upon return, contemplated staying over an extra night just to sail in the evening sea breeze.

**“If you’ve lost that sailing feeling . . .** then you should have seen the young family of four out in their Tanzer enjoying the breeze and each other.

**“If you’ve lost that sailing feeling . . .** then you should visit and show a little love to your sailboat, getting ready to sail at the first opportunity.”

## Race Committee

Race committee sometimes seems a little over the head of some of us but if you enjoy the sport there is a place for you. Yes we need a PRO but we also need someone to record the finish as called by the PRO. We require someone to raise and lower the flags on the committee boat **as directed**. A safety boat is used to set and move the course markers as well as assist any boats in trouble. If you are interested in learning or assisting in any of these areas at any time, please contact:
