I am very proud to have worked with you this weekend! As an RC team, you are topnotch, and you made my job easy.

With four boats on the water, we were able to reset courses while taking finishes, be ready to start another race before the competitors were back to the line, and respond to equipment failures with safety support. We gave the competitors great racing, along with a good workout.

The little things that make a huge difference to the competitors were too numerous to try to list, but I will note a few. We started on time and were responsive to feedback. Results were promptly posted. Courses were good duration, and somewhat square to the wind shifts.

It was a special pleasure to have Hal and April on the team with us this weekend. Anytime we have a junior on committee, I'm tickled pink.

As a club, you hosted a terrific event.

Thank you for the pleasure!!

Gaines, please forward to Dave & Hal.

David, please pass on to Chrissy.

Warren, please pass on to April. (April left her hat with me. I put it in the kitchen at the club.)
