## WE'RE OFF TO A CLEAN START!!!

The season started off with the roar of a chain saw, the sputter of a power washer, and the hustle of up to forty WSC members as they tamed the vegetative overgrowth, knocked down the cobwebs, and cleared out the remnants of many years past. Hands both young and young-at-heart worked together to bring the property back into shape after a season of use and a long winter. The next time you are at the club sit back and enjoy, or take advantage of the rejuvenated outdoor showers....and yes they have hot water!

One of this year's tasks is replacement of the storage shed. Many WSC members got a bit dirty working on this detail. The wood chips were flying as a failing cedar tree and its associated miles of vines near the shed had to be removed and years of very dusty untouched equipment was carefully extracted from the dilapidated shed.

Overall it was a wonderful and productive day at the club. Thank you to all who participated, lent out their tools, and/or who contributed financially! Your dedication to the club is greatly appreciated!!!!

## Come Celebrate JULY at WSC

Come celebrate the independence of our nation on Sunday, July 4th. Bring your patriotism and an empty belly as Debbie Hulon, our Social Committee Chairman, has organized a hotdog lunch followed by a special cool treat. Stay a little longer, and our neighbors will dazzle you with a ring of celebratory fireworks.

Can't make the 4th of July celebration? Make sure you come to the Shrimparoo on July 24th. We may be trying out something new due to the limited availability of shrimp, but either way it is sure to please! Hope to see you there!

*You have to love a nation that celebrates its independence every July 4, not with a parade of guns, tanks, and soldiers who file by the White House in a show of strength and muscle, but with family picnics where kids throw Frisbees, the potato salad gets iffy, and the flies die from happiness. You may think you have overeaten, but it is patriotism. ~Erma Bombeck*

In the last few weeks someone decided to hoist the flags at the club--always a good idea. However, they neglected to take the flags down and put them away when they left. I suppose this seems trivial to some, but it really shows something else to many--a total lack of respect. Even if you have no self respect please don't leave our nations flag flying if you hoist it on the flagpole at WSC when you leave. It wears all the flags out prematurely, looks terrible, puts WSC in a bad light and looks mighty seditious to many of us. Please show the proper respect that our nation's flag deserves.

On a lighter note--there weren't many racers last Saturday, but I think those that raced had a good time. Winds were light to nothing for most of the 1st race, but the next two races were 10-12 and just shifty enough to make it interesting. Debbie Hulon and Cindy Jacobs were kind enough to get the baked potatoes, salad, desserts and drinks for our dinner. As usual they did an outstanding job! Thanks for all you do for our club. Many thanks to all who helped with the club cleanup, club racing and all the other things that must get done for WSC to function. Become a member and not just a customer--you might just like it.

## RACING TIP - Sails

by: Butch Blanchard

Sails are the wings that power the boat. They can be adjusted at three corners, which usually affect the adjacent and opposite sides. We can control sail depth, draft position, angle of attack, vertical shape, and the amount of twist. In general, the main sail should be adjusted just enough to make it smooth and to provide that the upper leech area is parallel to the boom, Outhaul, downhaul, and vang will set the mainsail shape. Angle of attack is controlled by the main sheet. TIP: When in doubt, let it out.

## RACING UPDATE

### Race Day #1

What a perfect day of light and steady winds to get re-acclimated to the boat. The fleet stayed pretty close together until the third race when Rudy Tatum saw something on the left and went for it. It paid out big, Rudy had set up to be first at the weather mark and never looked back. Nice read Rudy & Eleanor!

### Race Day #2

Winds for the first race were, well I don't really recall any until halfway through the second leg. Conditions were shifty to say the least, we had 2 1/2 weather legs in the first race! After a speedy course change by Mike Butts, we got two more races in with building winds. By the start of the third race the winds had built to 12 knots and the excitement level was up as well. Following a day of constant gear changing, a feast fit for the crew of Oracle was held at the club. Thanks to all who helped prepare this wonderful evening of camaraderie attended by at least 30!
